**DOG
TRAINERS**

At Candor Canine Co we offer an array of private training services that are designed to suit dog of all ages, breeds, and temperaments.

Our training styles fit into more of a canine life coach vibe - addressing and understanding life outside of just the behaviours that you are seeing on the surface.

We thrive on helping modern day dog parents navigate life with their furry family member through building a foundation of trust and communication using force-free and ethical training practices.

*so let's get
started!*
