**CAT
TRAINER**

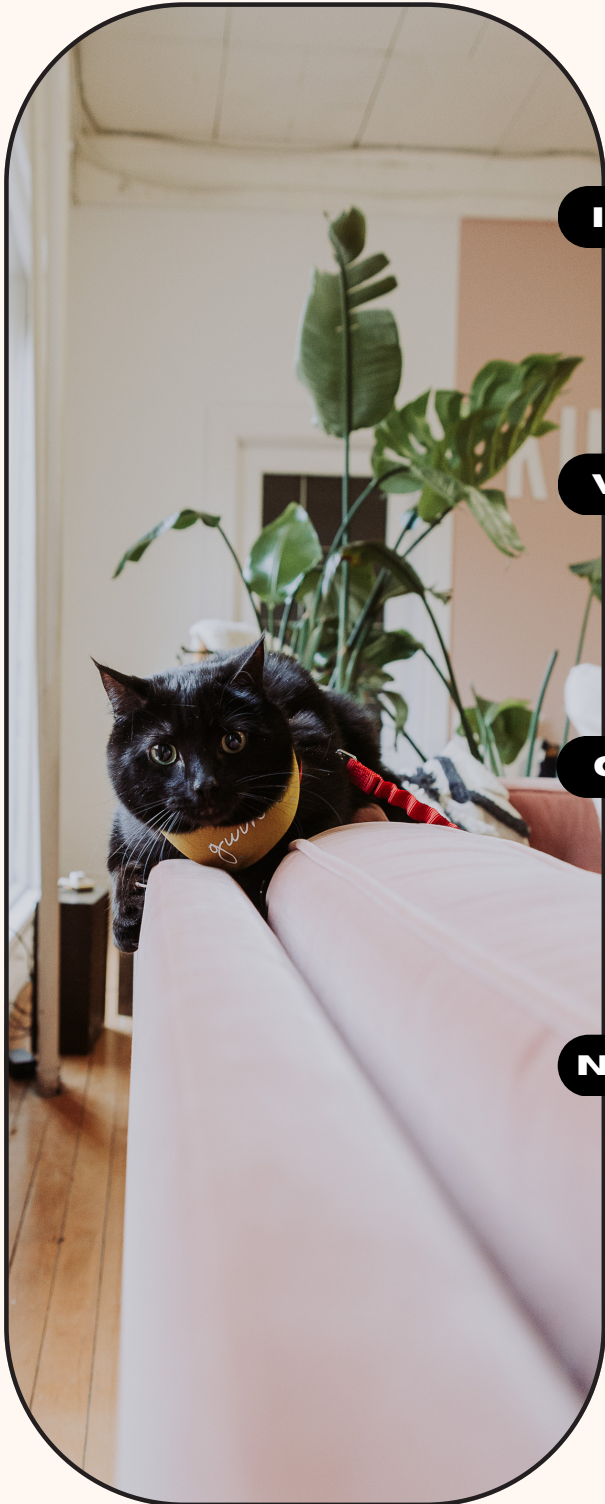

At Candor Cats we offer an array of private training services that are designed to suit cats of all ages, and temperaments.

Our training styles fit into more of a feline life coach vibe - addressing and understanding life outside of just the behaviours that you are seeing on the surface.

We thrive on helping modern day cat parents navigate life with their furry family member through building a foundation of trust and communication using force-free and ethical training practices.

*so let's get
started!*
